ABOUT

Strategy with soul.

"I don't create content. I build brand presences people scroll back to."

I'm Yukti Agarwal, founder of Wild Over Words and a marketing strategist and brand storyteller with dual MBAs from NMIMS Mumbai.

My work sits at the intersection of **data and emotion**, where a caption can become a sale and a reel can become a movement.

From social media strategy to reel scripting, influencer collaborations, and SEO-led storytelling, I help brands transform their digital presence into something memorable, credible, and high-performing.

I handle the full spectrum: ideation, strategy, direction, scripting, production, and performance analysis.

Because beautiful content alone isn't enough.

It has to perform.
